SAMx : Background

Microanalysis software development EDS and WDS demands constant efforts if all of the latest applications from international laboratories are going to be utilized. The necessary expertise to rapidly integrate these applications into its commercial products is one of the many strengths of SAMx.

SAMx, founded in 1989, is constantly searching for new applications with the result that a constant stream of new products has been released to the market; i.e. STRATA , 1991, XMAS, 1993, HiMax, 1995, OptiX 1998, MaxView 1999, IDFix, 1999, MaxView XL 2000 3D_TopX 2003, Hurricane 2005.. Another source of new products and ideas for upgrading existing products comes from listening to our users and marketplace.

As important as the timely release of new products, SAMx does ensure rapid and competent customer support.

As an example, SAMx has pioneered the direct downloading of software updates from the SAMx website.

SAMx has a corporate mission for complete and un-compromised satisfaction of all its users and customers.

SAMx engineers and scientists have many decades of experience with all facets of the Microanalysis market.

In just few years SAMx has become a major player in the microanalysis software market. SAMx software is used worldwide and is considered as the reference in this field.

SAMx : Products

- STRATAGem : Thin film analysis software for stratified samples.
- XMAS : WDS/EDS automation software.
- FORMULA 1 : Geological software to calculate structural formula.
- PROFILE : Quantitative trace analysis software.
- HiMax : Quantitative imaging package for SEM/EPMA with EDS or WDS.
- OptiX: Simple optical Auto focus device for microprobe.
- IDFix : EDS package.
- MaxView: Powerful SEM imaging package linked to IDFix.
- MaxView XL: EDS Spectral imaging.
- 3D_TopX: Three D software
- Hurricane: Monte Carlo software

SAMx Key Words:

- **Competence**
- **Experience**
- **Technology**
- **Professionalism**
- **Collaboration**
- **Partnership**
- **Customer satisfaction**
- **Internet support**

To guaranty support for all customer needs, SAMx is represented by a worldwide network through OEM's or direct representation (North America, Germany, Italy, Australia,...). This assures all customers and users rapid response from a local agent.
